UPDATE 8-22-2011

### Statement Issued By Mayor Marks in Regards to Ethics Complaint

"As Mayor I'm busy serving the people of Tallahassee and fulfilling the duties of this office. I can't stop everything I'm doing each time Erwin Jackson files another complaint with a different agency.

"I believe the public is beginning to see what Erwin Jackson is all about. He's filed several complaints and, rather than wait to see how they turn out, he files more complaints. He's more interested in creating controversy than letting the process run its course and having the Ethics Commission and the Bar carry out their responsibilities.

"The Florida Bar will review this and I'll accept whatever it decides to do. But until then, I can't continue to have the City's tail wagged by Erwin Jackson every time he files a complaint. I have responsibilities to the people of the City of Tallahassee."

-----  
A Tallahassee businessman and former city commission candidate takes his ethics complaints against Mayor Marks to the Florida Bar.

Erwin Jackson says the City of Tallahassee gave Honeywell a \$52-million contract while Mayor John Marks' law firm was representing the company.

Jackson filed an ethics complaint with the Florida Bar, also citing similar concerns regarding Marks and the Alliance for Digital Equality (A.D.E.)

Jackson says, "You have to be willing to refuse any payments to you personally, to your wife, to your son, to your consulting firm, to your law practice. I don't care what door they pass the money through to get to the elected official, it's wrong."

Jackson's complaint also says Marks used his staff to solicit contracts to AT&T.

We have not heard back from Mayor Marks or his office on a response.

We will keep you posted when the Florida Bar makes a decision.

I commend you Mr. Jackson. You're a brave man apparently with intelligence and integrity, unlike many locals I've discovered. You have my vote anytime. In fact, I'll vote for you four or five times in the next election. After all, this is Florida.

No answer from Cottonmouth yet. It's pretty quiet out here. Wait, I hear something. It's a clock, and it's ticking.

Hi Cottonmouth. You know how to catch a Cottonmouth? You have to sneak up on him when he isn't looking, then hit him with everything you've got. Hahahahahaha! I love redneck trash.

Dear Jean: Unless you own your own ISP then there is no such thing as a private email address. You actually share the world wide web improperly referred to as the internet. The internet is used by the scientific community for the most part. If you are a skilled user you might use the deep web. Since you think you have a private e-mail address...how much did you pay for it and where is your deed?

I am glad Mr. Jackson is trying to do something about all the wrongdoing at city hall, as it appears the voters are too ignorant of what is going on. The Florida Bar and the ethics commission are two shams that cover up. I have seen too much stealing by lawyers and nothing done at the bar when a complaint is filed. I am glad the FBI is looking into the city, and I hope they will look through the county government, also. There is more there, than has been talked about.

Several people, including the FBI, have asked why I have worked so hard to expose the Mayor's unethical and I believe illegal activities to the public. It's simple. If you steal from me and the citizens of this community someone has to stand up and say it is wrong and it will not be tolerated. I agreed to stand up and no longer be silent. If the truth makes you a little nervous then so be it. Speaking among ourselves on the computer is less likely to result in change than speaking directly to the Mayor and city commission.

Didn't Sheriff Harvey have to sell his interest in the " Florida Bar?" Marks would have voted for it.

Marks, he is simply filing a new complaint each time he discovers another one of your wrong doings. Stop being a crook, and Erwin will stop the complaints.

Mayor, You'd better find time, because the amount of baggage you have accumulated since taking office would have removed anyone else, who is not as well connected as you.

A complaint to the Florida Bar is a joke! They protect their own and always cover for those like Marks. Take a close look at the investigators they hire one was run off from TPD for lying. Liars and lawyers just like the rest of our government.

As an atty the Mayor knows that you almost have to prove what he was thinking, at the time he made any decisions that are questionable, in order to prove him guilty...very hard to do. Very expensive to do. And the Mayor knows that we have panty-waist Judges on stand-by willing to act more like the Mayor's defense aty than Judges. But rock-on Erwin it's your right & I'm proud of ya. You can do what many of us employed by a government want to do, but can't do, due to fear of reprisal.

From what I am being told there is enough which is going to be coming out about the Mayor to warrant many, many, complaints. If even some of it is true Marks will not only not be the mayor, he more than likely will not be an attorney. Corruption usually does not pay in the long run.

Somebody should file a complaint against the FDLE agent that helped a weight loss clinic owner set up a weight loss clinic that gave scheduled meds illegally to, you guessed it, the FDLE agent's partner and DOH, States Attornies, FHP, etc.

What about the county commissioner that illegally dispenses scheduled drugs throughout the southeast while FDLE looks the other way?

As Mayor, you are to avoid even the APPEARANCE of impropriety. You not only failed in this regard, you blatantly ignored your oath and violated not only your ethical obligations but your legal ones as well. As an attorney you cannot plead stupidity because you know the law. I do not know who Erwin Jackson is but you spend time crying about him and not one single time did you admit your failure to the citizens of Tallahassee. I challenge you to a public debate. You pick any elected judge...even one of your siblings is fine with me...and I will be happy to reveal your acts and save the Bar some time. I will admit you have a better haircut than Bill Proctor. For that matter Scott too. The FBI task force assigned to N Florida investigating corruption is for people exactly like you.
